

MMS/D08
Computer Application in Management
Paper Cp -107

Time : 3 Hours

MM:70

Note :- Attempt five questions in all taking one question from each unit. All questions carry equal marks.

- 1 Write short notes on following:
 - (a) Define DBMS. What are the advantages of it ?
 - (b) Explain the following terms: www, http.
 - (c) What are the different files loaded during System Booting? Name them.
 - (d) 1's and 2's complement. Explain it.
 - (e) Differentiate between Broadcast and point-to-point Networks.
 - (f) Differentiate between DOS and Window Operating System.
 - (g) What is Cache Memory? Why it is used? 10
- 2 Define Computer system. Also explain the block diagram of Computer
- 3 Differentiate the following:
 - (a) Hardware and Software 4
 - (b) Low Level Language and High Level Language 3
 - (c) LAN and MAN 3
- 4(a) Explain various types of file organizations. 5
- (b) What do you mean by Data Processing? Give an account of Data Hierarchy 5
- 5 What do you mean by Operating System? Explain its Functionality and also differentiate between CUI and GUI
- 6 Define Network Topology. List the various parameters used to design the network topology. Explain the functioning of topology.
- 7 Why are VO devices necessary for a Computer System? Give the names of various devices that can be used as input/output devices
- 8 Write short notes on following:
 - (a) Creation of spreadsheet applications
 - (b) Graphics, Formula and Range on spreadsheet
